

# **Mahmodul Hasan - Safety Specialist**

Empathetic & Analytical Safety Specialist | Risk Assessor | Safety Trainer

I am a safety specialist with a unique blend of emotional intelligence and rational analysis. My approach focuses not only on identifying and eliminating risks but also on connecting with people to create a culture of safety. I believe that true safety goes beyond compliance-it's about care, communication, and collaboration.

With a passion for both people and process, I am able to analyze safety hazards with data-driven precision while also providing compassionate guidance during incidents or training sessions. Whether it's conducting inspections, leading safety briefings, or developing emergency protocols, I strive to ensure both physical protection and mental assurance in every environment I work in.
